

Safety Data Sheet

Autogenous Bacterins Containing Oil-Based Adjuvant

Prepared by Anna Pietruszkiewicz

SDS Section	SDS Heading	Specific Information Elements
1	Identification	<ul style="list-style-type: none"> • Sterile Biologic containing inactivated, bacterial culture(s), may contain chemical inactivating agent, preservative, oil and aluminum hydroxide adjuvant or only oil adjuvant. • Autogenous Bacterin • For the vaccination of healthy animals against the organisms listed on the product label. • For veterinary use only. Not for oral or human use. Must only be used on the farm(s) listed on the label and/or the production records. • Manufacturer: Gallant Custom Laboratories Inc 1425 Bishop St. N units 10 -13 Cambridge, ON N1R 6J9 Telephone: 519 620-2488 or 1888-838-5223 Fax: 519 620-2489 • Alternate emergency telephone number : 519830-1455
2	Hazard Identification	<ul style="list-style-type: none"> • Health hazards are not anticipated for persons using this product as directed under field conditions <ul style="list-style-type: none"> • Avoid accidental injection and needle sticks • Dispense used needles in appropriate containers.
3	Composition/Information On Ingredients	<ul style="list-style-type: none"> • Product contains inactivated bacterial cells and fermentation byproducts. • The following chemicals may be present: Formaldehyde <ul style="list-style-type: none"> • Also known as formalin • Formaldehyde is a known carcinogen. • Chemical Abstract Service (CAS) registry number 50-00-0 • Concentration of 0.2 to 0.5% Sodium Ethylmercurithiosalicylate <ul style="list-style-type: none"> • Also known as Thimerosal

		<ul style="list-style-type: none"> • Thiomersal is very toxic by inhalation, skin contact and if swallowed • CAS registry number 54-64-8 • Concentration is 1:10,000 <p>Oil Adjuvant</p> <ul style="list-style-type: none"> • Also known as Emulsigen® • an oil-in-water emulsion containing pharmaceutical grade light mineral oil, water, emulsifying agents, and formaldehyde. • Concentration 10 to 25%
4	First-aid Measures	<ul style="list-style-type: none"> • First-aid measures by route of exposure: <ul style="list-style-type: none"> • Injection- May cause pain, swelling and inflammation, at injection site, tissues and tendons. Product contains oil emulsion and must be removed from site. Review status of tetanus immunization. Bacterial components are inactivated, however, may be gram negative and contain endotoxin. In any case of exposure, contact a physician as soon as possible. • Skin Contact- Wash thoroughly with soap and water • Eye Contact - May cause irritation. Flush with copious amounts of water for 15 minutes. In any case of exposure contact a physician as soon as possible. • Ingestion – Contact physician • Health hazards are not anticipated for persons using this product as directed under field conditions.
5	Fire Fighting Measures	<ul style="list-style-type: none"> • Suitable extinguishing media- Water or dry Chemical • Specific hazards arising from the hazardous product - none • Special protective equipment and precautions for fire fighters- None reported
6	Accidental Release Measures	<ul style="list-style-type: none"> • Contain the spill and take up with an absorbent material. Place in a clean, dry container for later disposal. Wash hands and affected clothing. Wash area with degreaser, to remove any remaining oil residue.
7	Handling and Storage	<ul style="list-style-type: none"> • Avoid accidental self-injection • Store at between 2 and 7°C • Do not freeze
8	Exposure Controls/Personal Protection	<ul style="list-style-type: none"> • Respiratory Protection: none required • Ventilation – local exhaust • Gloves- recommended against accidental injections or punctures. • Eye protection- safety goggles with side shields

9	Physical and Chemical Properties	<ul style="list-style-type: none"> • Milky white in colour with slight sediment • Slight pungent odour • pH – 6.5 to 7.5 • Melting point/freezing point- unknown • Initial boiling point/boiling range -unknown • Flash point- unknown • Evaporation Rate -unknown • Flammability (solid; gas)- non-flammable • Vapour pressure- unknown • Vapour density - unknown • Relative density- unknown • Solubility- miscible in water • Viscosity- unknown
10	Stability and Reactivity	<ul style="list-style-type: none"> • Stable • Possibility of hazardous reactions- none reported • Conditions to avoid – none reported • Incompatible materials - none reported • Hazardous decomposition Products- none reported
11	Toxicological Information	<ul style="list-style-type: none"> • The most likely route of exposure is by accidental injection. Any oil injected must be removed-consult a physician. • Formaldehyde and Thimerosal concentrations are below toxic levels to humans.
12	Ecological Information	<ul style="list-style-type: none"> • No ecological effect known
13	Disposal Considerations	<ul style="list-style-type: none"> • Comply with all applicable federal, provincial and local regulations, concerning spill reporting, waste handling, and waste disposal.
14	Transportation Information	<ul style="list-style-type: none"> • Special precautions- product should be maintained at 2 to 8° C to maintain quality.
15	Regulatory Information	An autogenous biologic is intended for use under the supervision of a licensed veterinarian.
16	Other Information	Recent Revision: April 14, 2020
